Page Layout

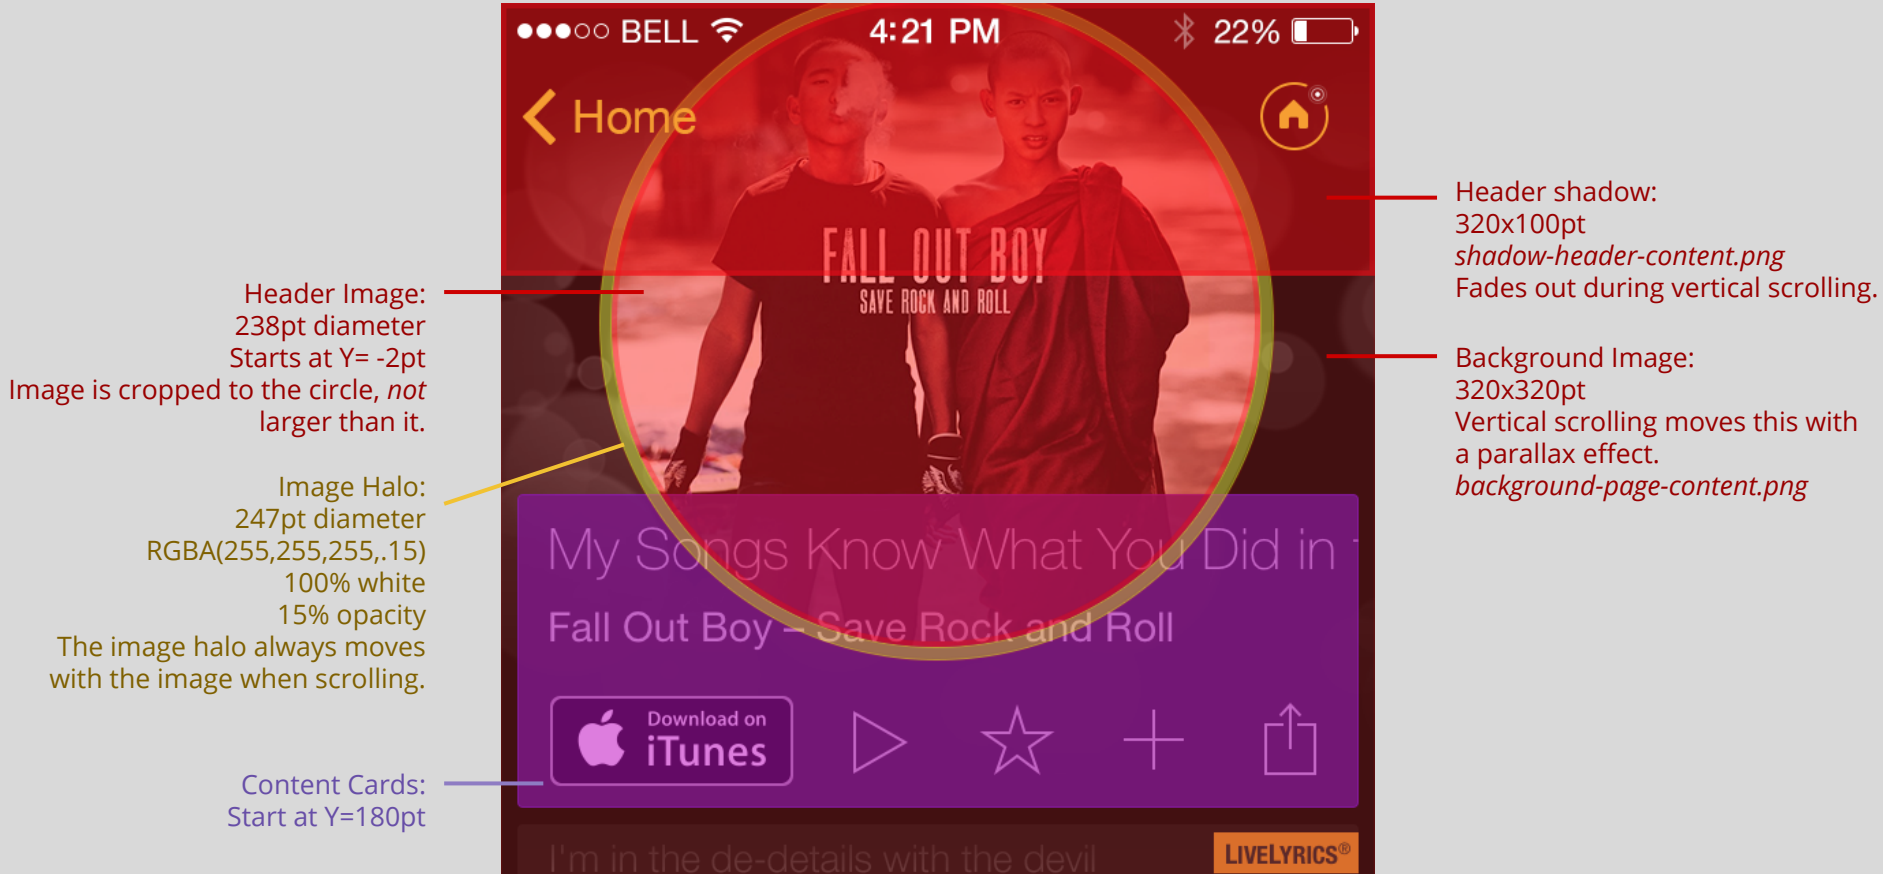

General Photo Header

All content pages - track, artist, and album - will use this photo header background.

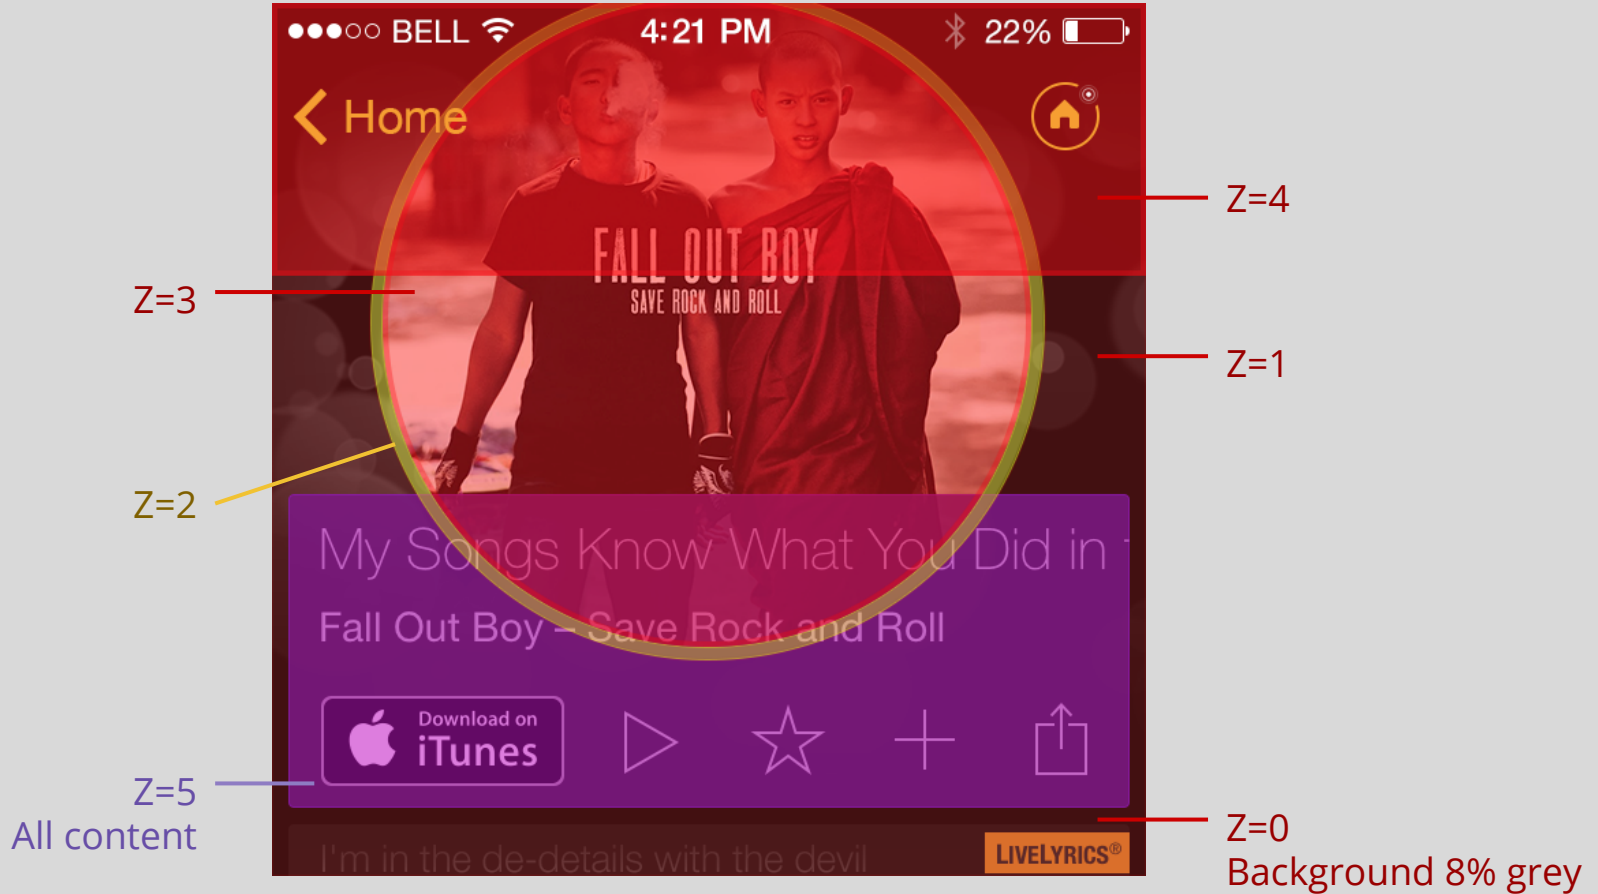

General Photo Header - Metrics

All content pages - track, artist, and album - will use this photo header background.

General Photo Header - Stacking Order

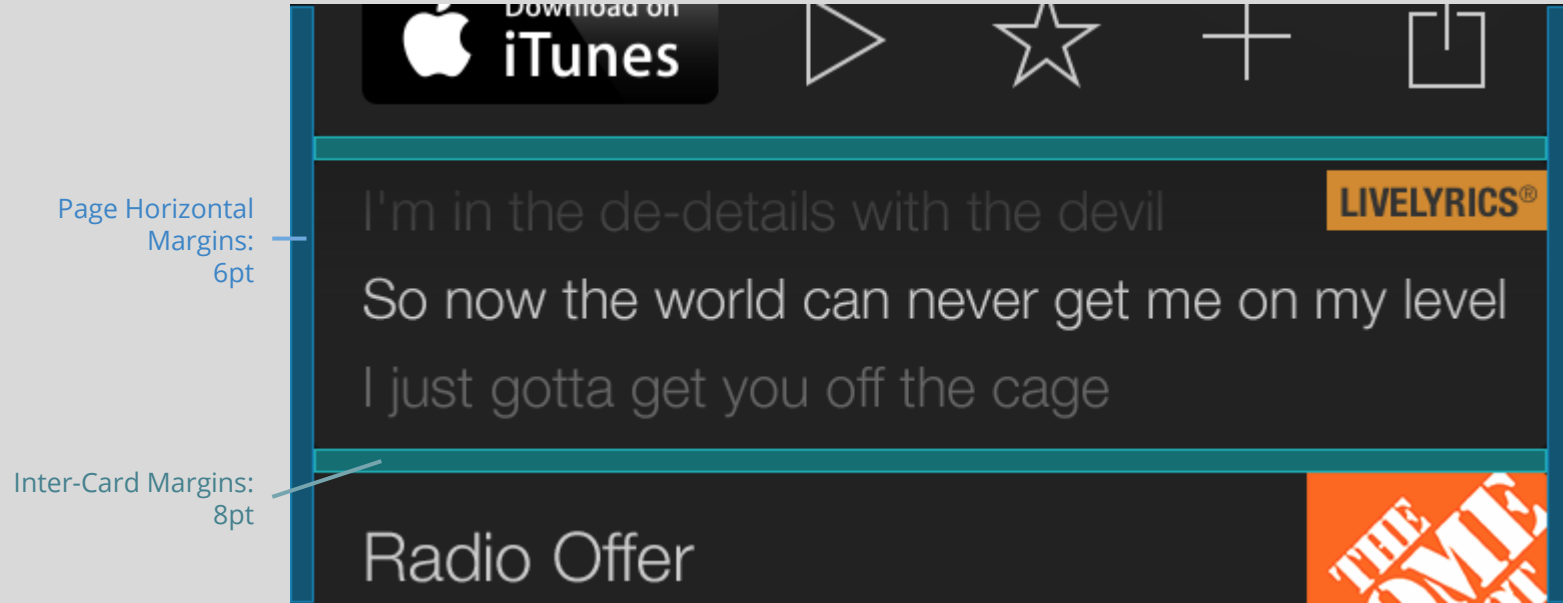

General Card Elements & Layout

Card Page Margins

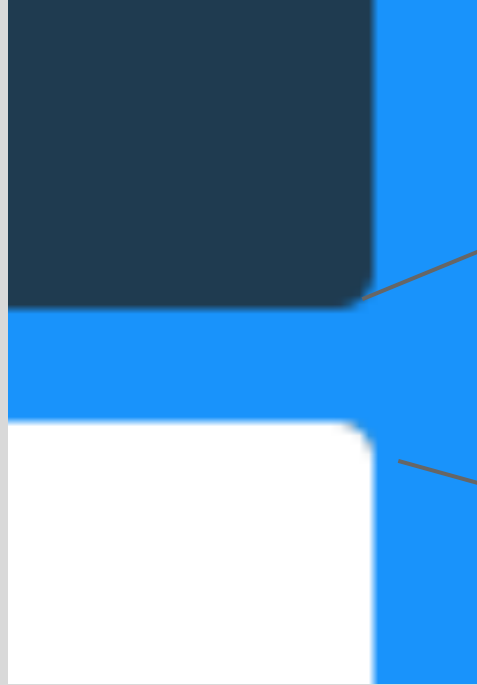

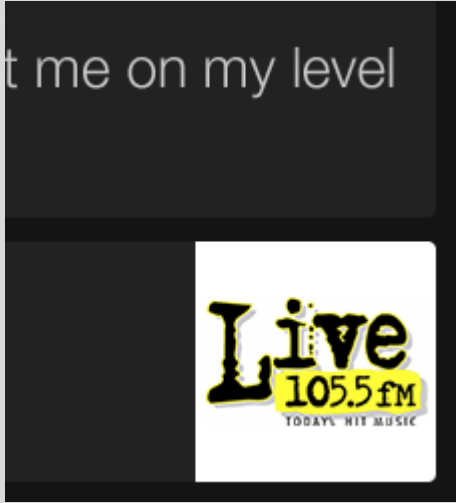

All cards use these values.

All cards are 308pt wide

Card Edge Style

All cards use these values.

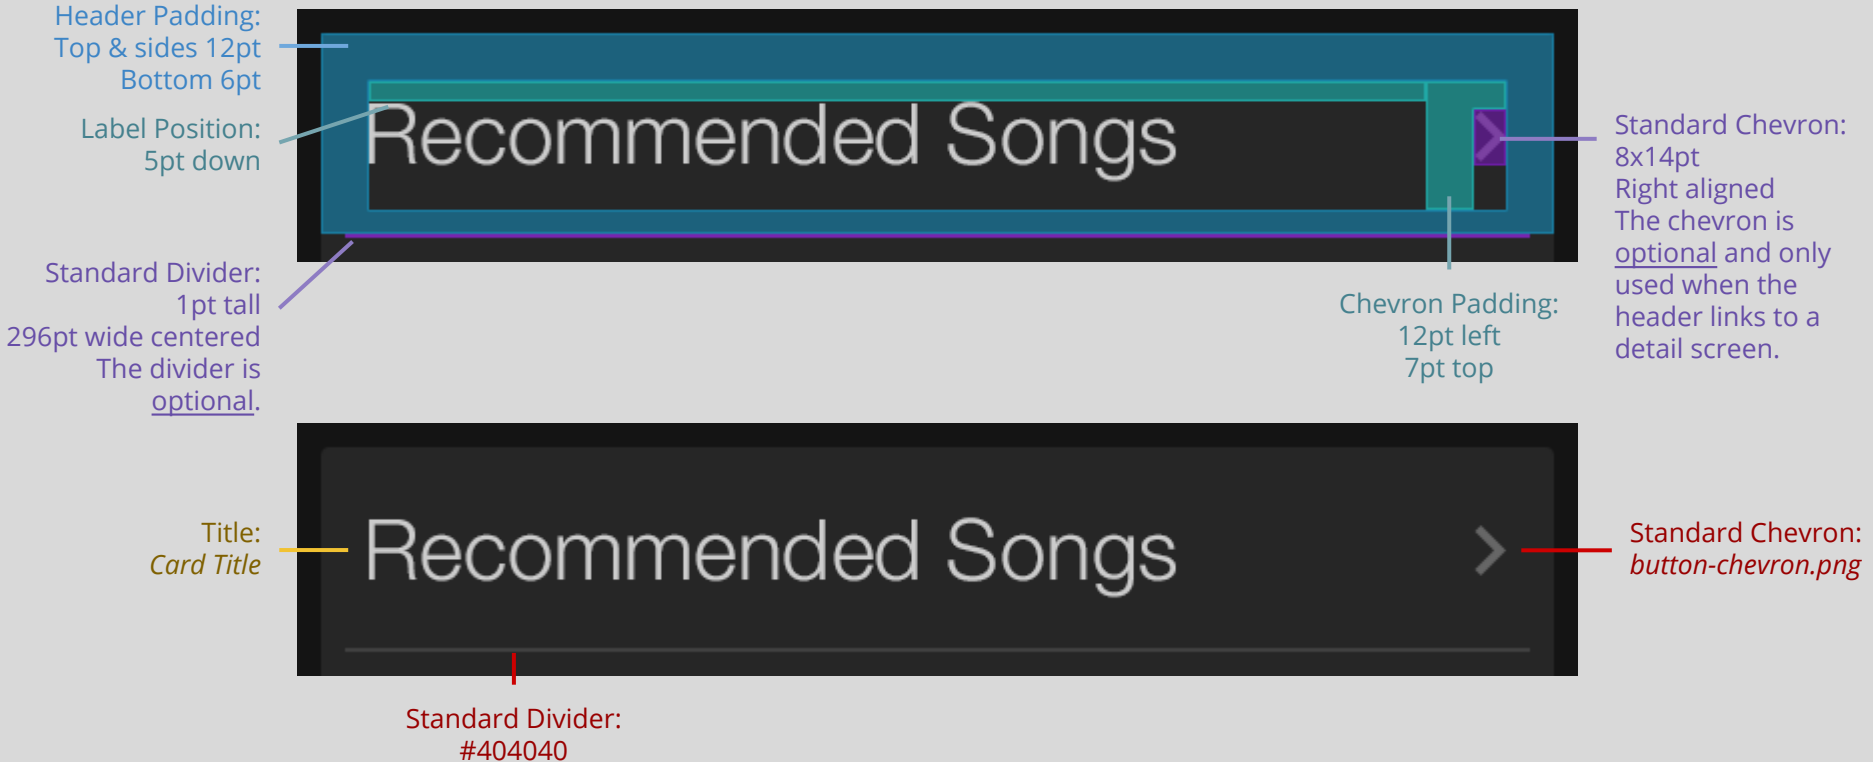

Card Corner Radius:
2pt

Images are clipped by
the card's corner radius.

Generic Card Header: One-line

All cards with headers use this design.

Header: 308x51pt including divider

Generic Card Header: Two-line

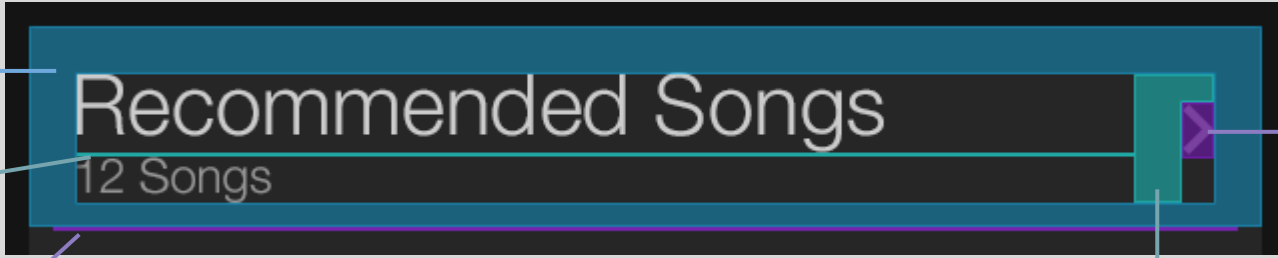

All cards with headers use this design.

Header: 308x51pt including divider

Header Padding:
Top & sides 12pt
Bottom 6pt

Label Spacing: 1pt

Standard Divider:
1pt tall
296pt wide centered
The divider is optional.

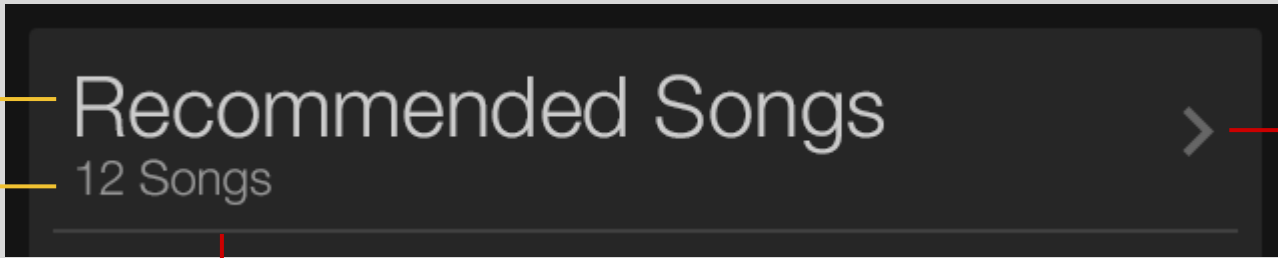

Standard Chevron:
8x14pt
Right aligned
The chevron is optional and only used when the header links to a detail screen.

Chevron Padding:
12pt left
7pt top

Standard Divider:
#404040

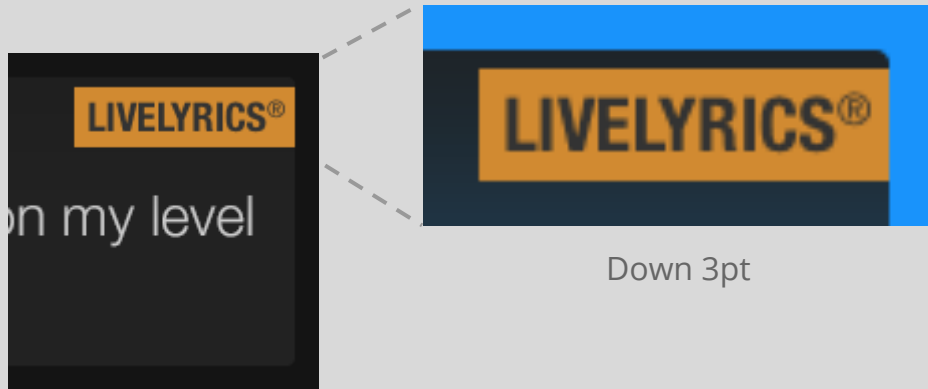

Content Tags

Content tags will typically adorn artist or album images. Some cases may use them directly on a card, like on LiveLyrics.

Tags are usually aligned to the **edges** of their container.

Tags appearing at the **top** or **bottom** of a container **with radiused corners**, such as a standard card, are offset from the edge by the radius + 1pt.
This would be 3pt on a normal card: 2pt radius + 1pt.

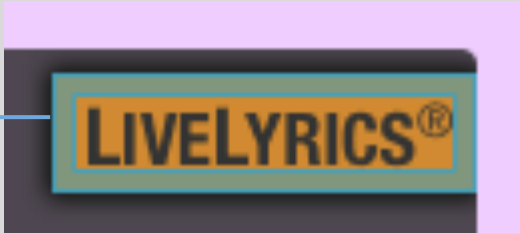

Content Tags - Appearance

Content tags will typically adorn artist or album images. Some cases may use them directly on a card, like on LiveLyrics.

A tag should be 15pt high with these values.

Tag Padding:
3pt all around

Lyrics Tag Shadow:
Outline 1px (not pt)
#262626
Shadow 4pt, no offset
#262626 100% opacity

non-synched lyrics

Large Video Card

The large video card usually appears attached above the video tile card. In rare cases it may appear alone.

Entire card: 198pt tall

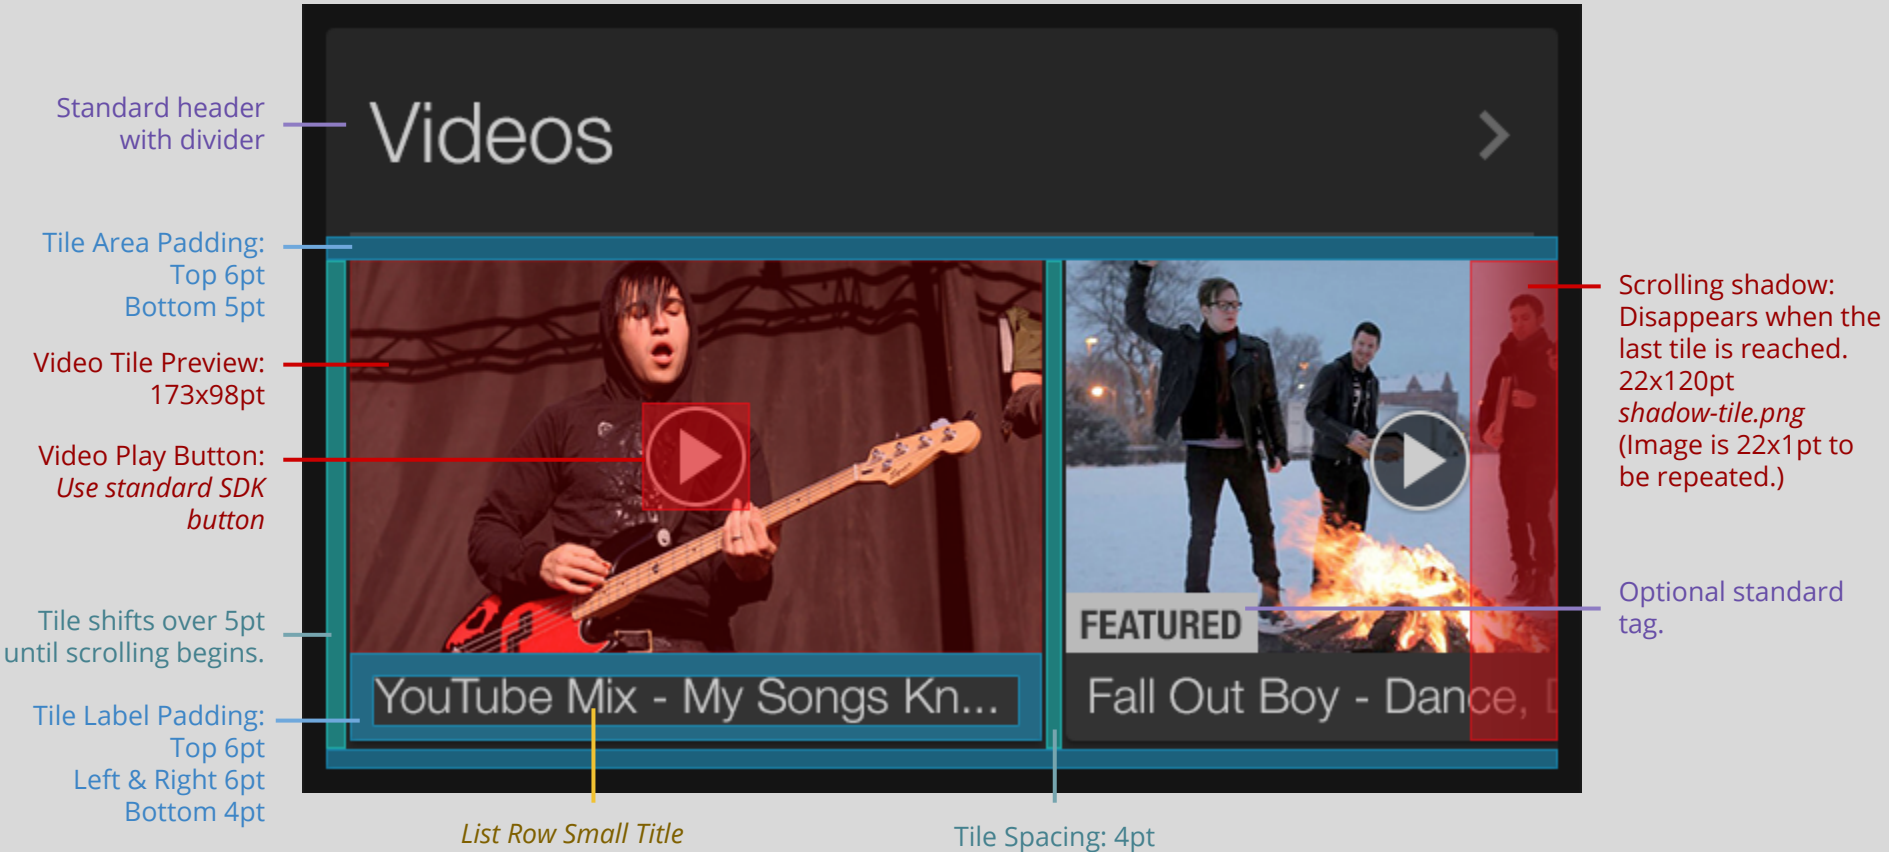

Video Tile Card

The video tile card presents video links in a horizontally-scrolling row. Scrolling should snap to the tile edges.

See the next page for details!

Entire card: 185pt tall

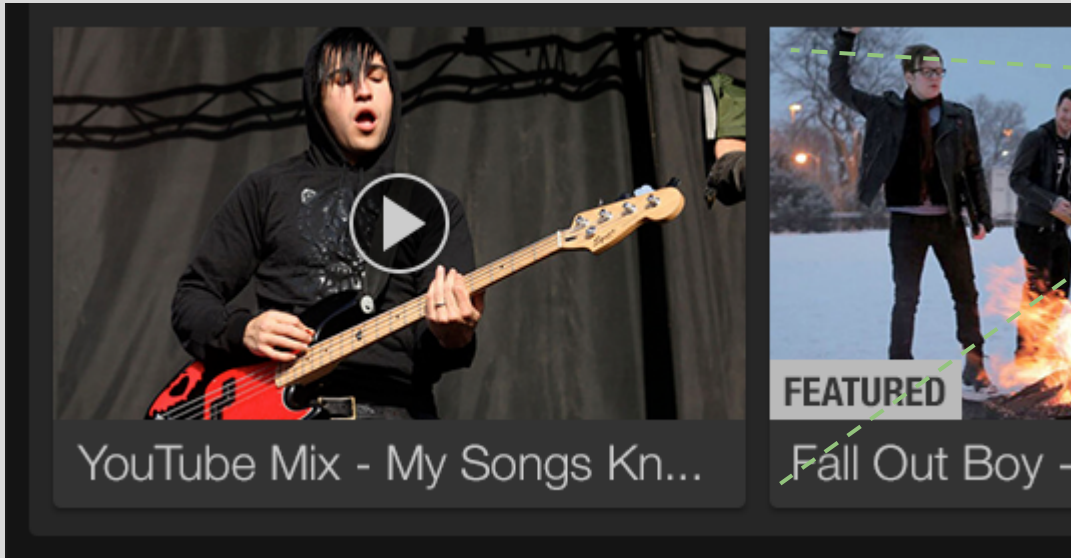

Video Tile Card - Tile Details

Each tile has a drop shadow.

Each tile without the drop shadow: 173x120pt

Each tile with the drop shadow: 175x122pt

Tile shadows:

Each tile has a shadow:
10% brightness (#1a1a1a)
100% opacity
1pt offset down
1.5pt radius/blur (2pt may be used if sub-points can't be specified, but the tile area will grow slightly.)

Tile corners:

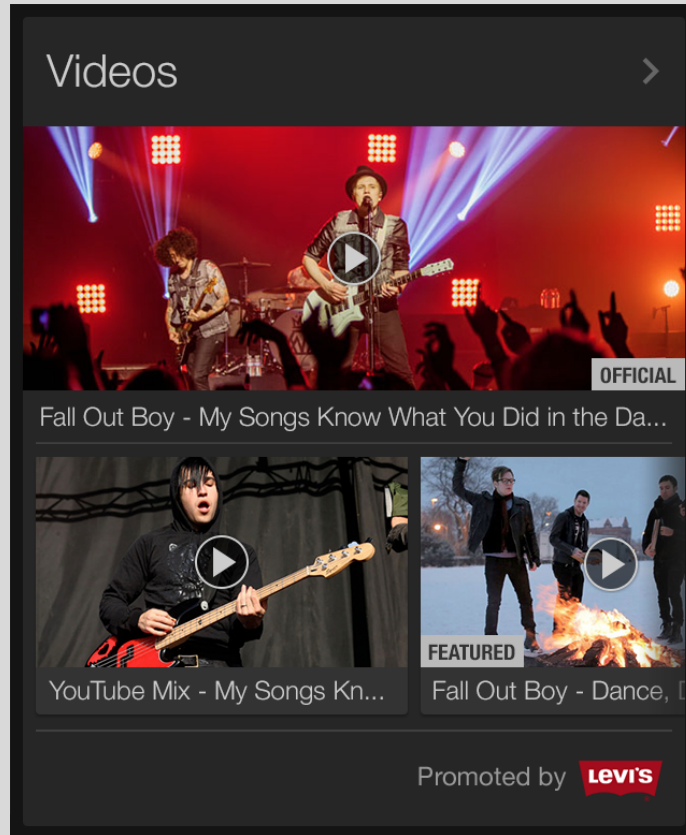

A tile's top corners are square.

The bottom corners use the standard card radius of 2pt.

Combined Video Card

The video cards can be joined to present one large statically-positioned video and a series of scrolling video tiles.

Standard Divider

OFFICIAL

Fall Out Boy - My Songs Know What You Did in the Da...

FEATURED

YouTube Mix - My Songs Kn... | Fall Out Boy - Dance, [

Promoted by **Levi's**

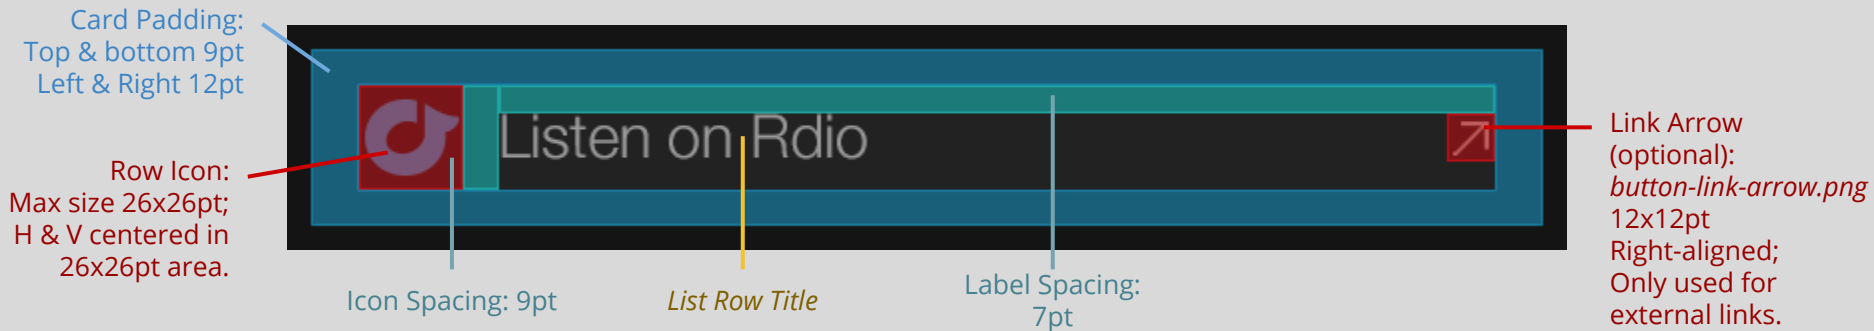

The image shows a YouTube video player interface. At the top, the word "Videos" is displayed with a right-pointing chevron. Below this is a large video thumbnail for "Fall Out Boy - My Songs Know What You Did in the Da..." with a play button icon and an "OFFICIAL" badge. Underneath are two smaller video thumbnails: "YouTube Mix - My Songs Kn..." and "Fall Out Boy - Dance, [". The bottom of the player features a "Promoted by Levi's" banner.

Standard Cards

Labeled Icon Card: Small

This simple card is typically used for premium rows, but should be available for other uses. The entire row is a target.

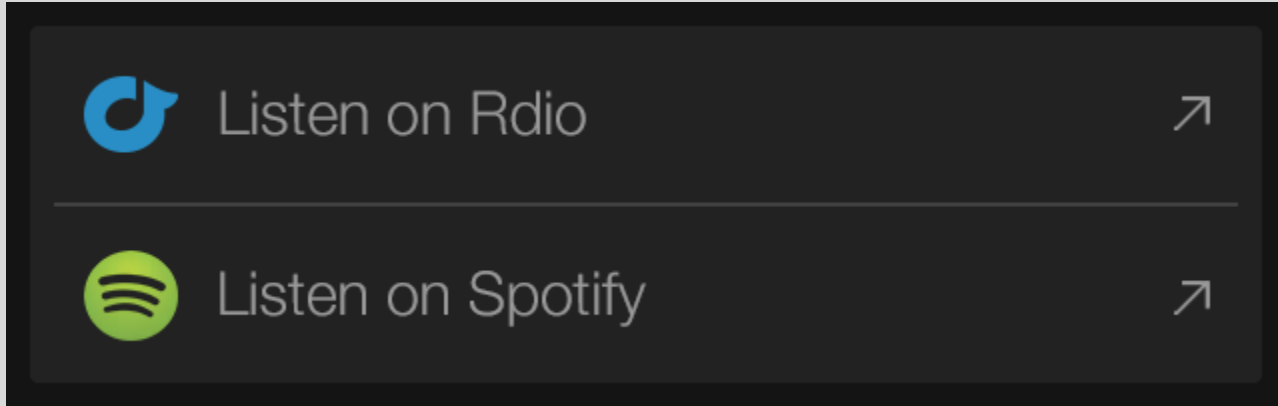

Single labeled icon row: 44pt tall

Labeled Icon Card: Multiple Rows

Multiple labeled icon rows stack with a standard divider between them.

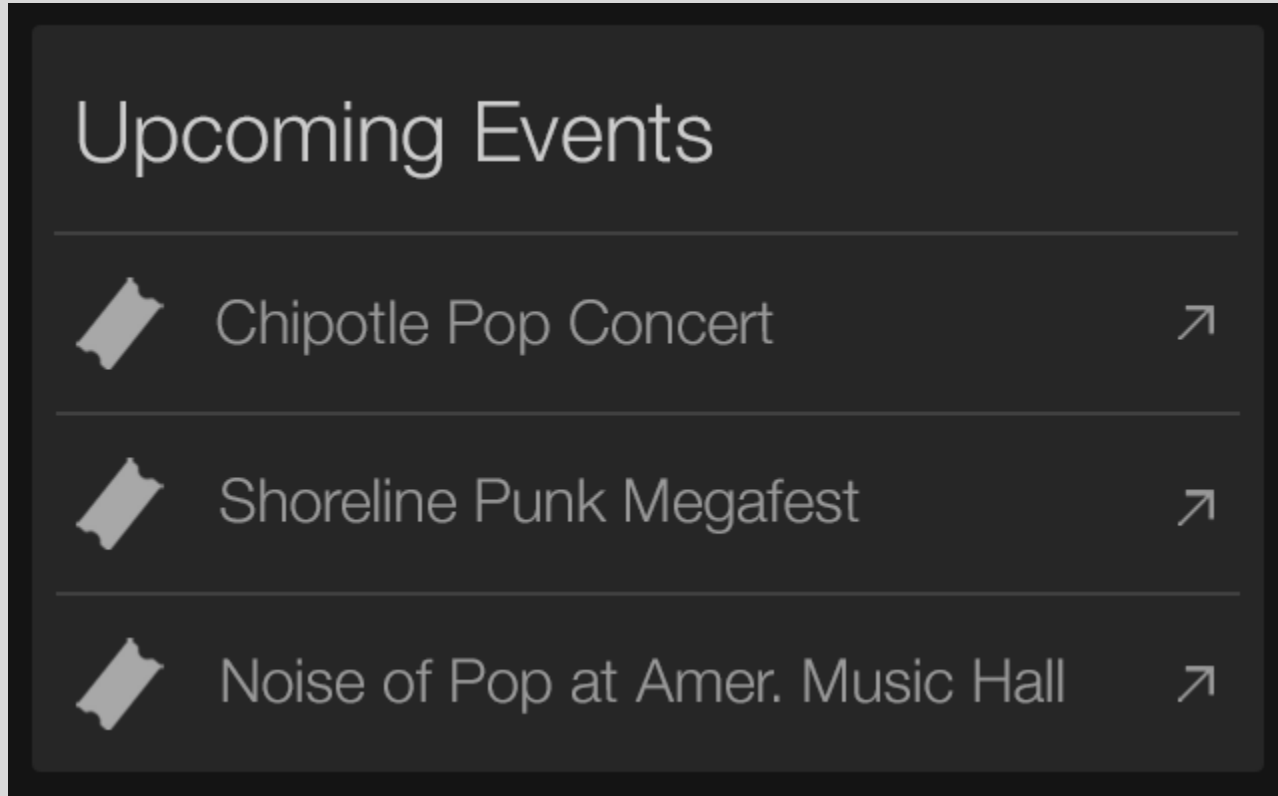

Standard Divider

Labeled Icon Card: Multiple Rows + Header

Generic card headers can be attached to labeled icon rows, such as for event listings.

Generic Header

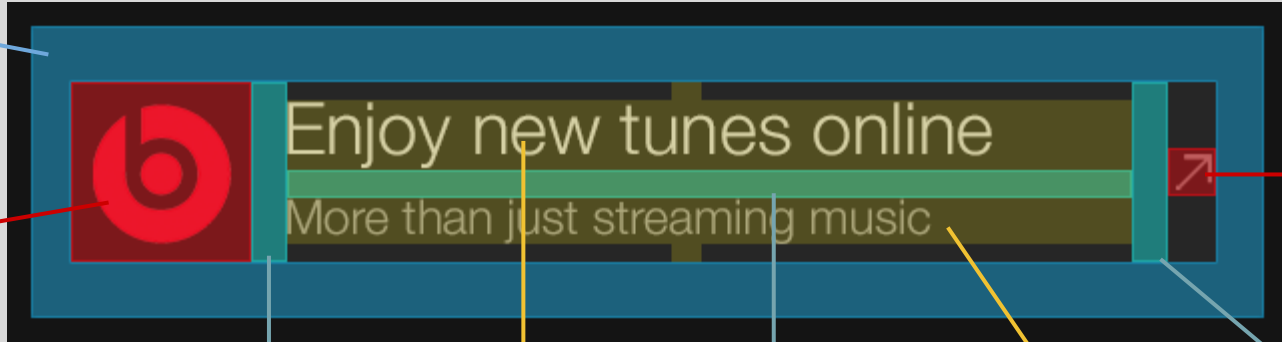

Labeled Icon Card: Large

This card is typically used for premium rows beyond the top of the page. The image, second line of text, and link arrow are all optional. The entire row is a target.

Large labeled icon row: 73pt tall

Card Padding:
Top & bottom 14pt
Left 10pt
Right 12pt

Row Icon
(optional):
Max size 45x45pt;
H & V centered in
45x45pt area.

Link Arrow
(optional):
button-link-arrow.png
12x12pt
Right-aligned;
Only used for
external links.

Icon Spacing: 9pt

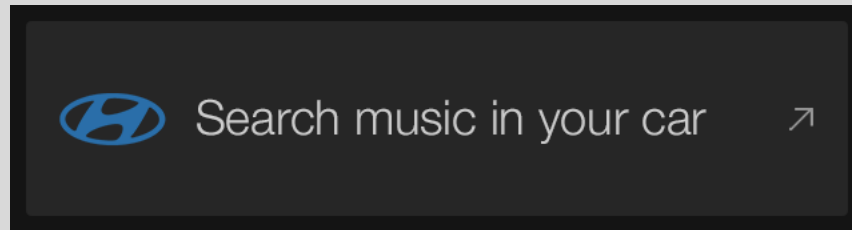

Card Medium Title

Label Spacing:
7pt

Card SubTitle
(optional)

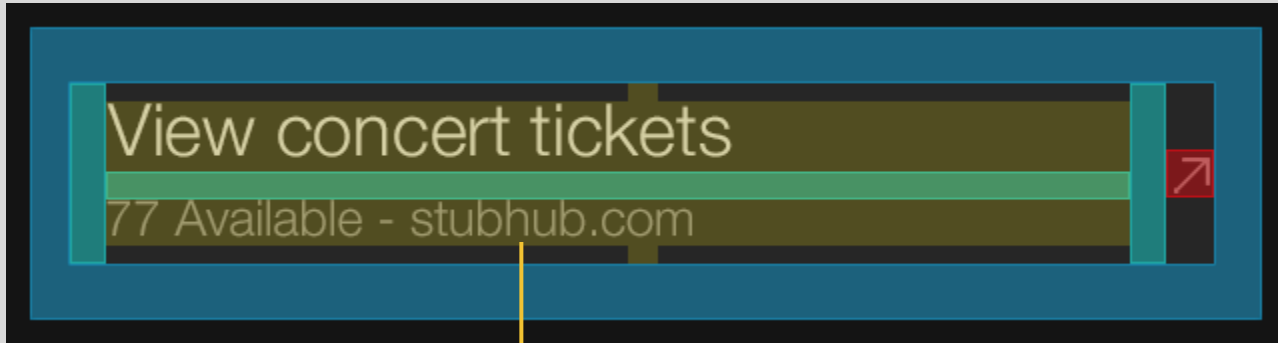

Arrow Spacing: 9pt

Single line label:

Labeled Icon Card: Large - No Icon

If there is no icon provided then the labels shall expand left to fill the empty space. All other values remain the same. The link arrow remains optional.

Bold

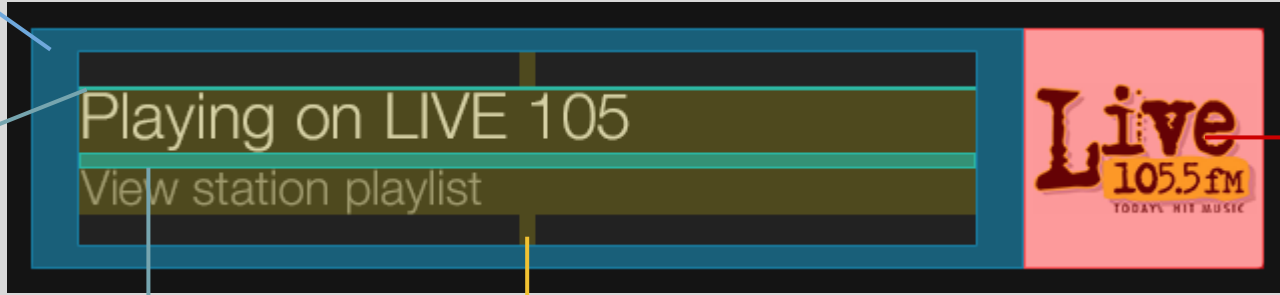

Right Image Card: Small

This layout places a small image on the right. It is used for broadcast ID and promotional offer cards. The entire card is a touch target.

60pt tall

Text Padding:
Top & bottom 6pt
Left & Right 12pt

Label Padding:
1pt
(Maintains vertical
centering with
descender characters)

Label Spacing:
4pt

The label area is
vertically centered in
the padded area.

Image:
60x60pt
Left-aligned, clipped
by the rounded
corners.

Card Small Title

Playing on LIVE 105

Card Subtitle
The subtitle can
wrap to a second
line.

View station playlist

Right Image Card: Medium

This layout places a medium (1/3rd width) image on the right. It is used for artist, feature, and location cards. The entire card is a touch target.

100pt tall

Text Padding:
Top 12pt
Left & Right 12pt
Bottom 6pt

Card Title

Label Spacing:
6pt

Default: Card Subtitle
The subtitle can wrap to multiple lines.

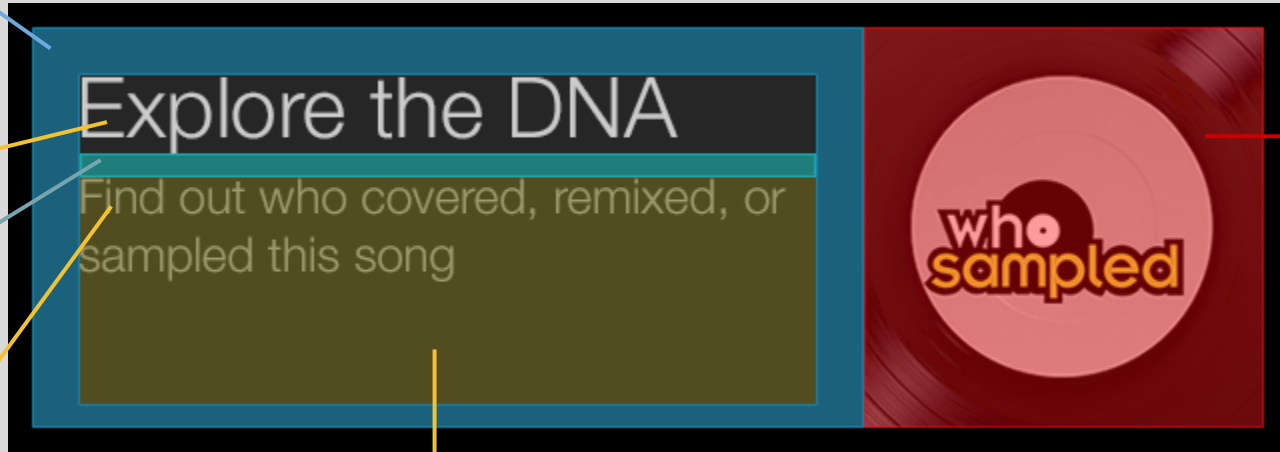

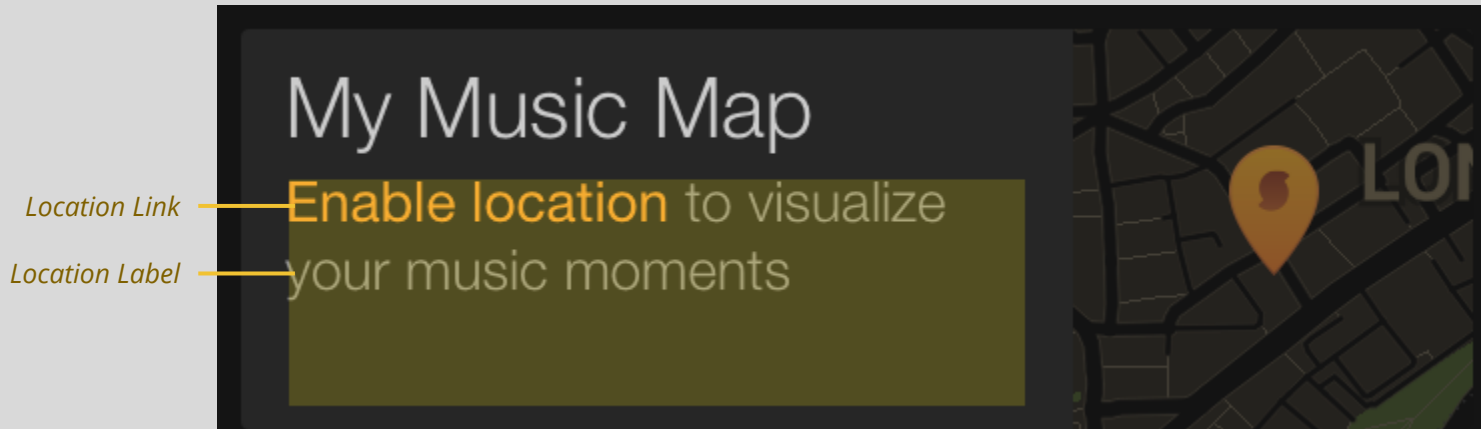

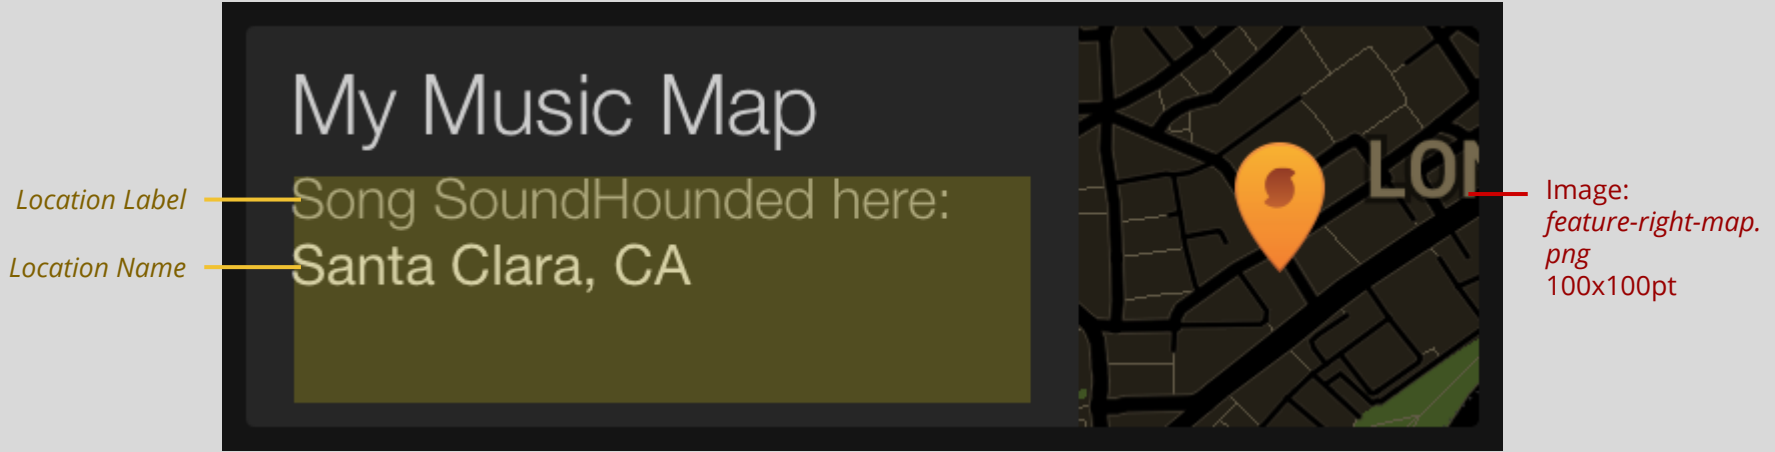

Image:
100x100pt
Left-aligned, clipped
by the rounded
corners.

Description Area:

Different layouts can fill this area depending on the card's purpose. See the following pages for examples.

Right Image Card: Medium - Location

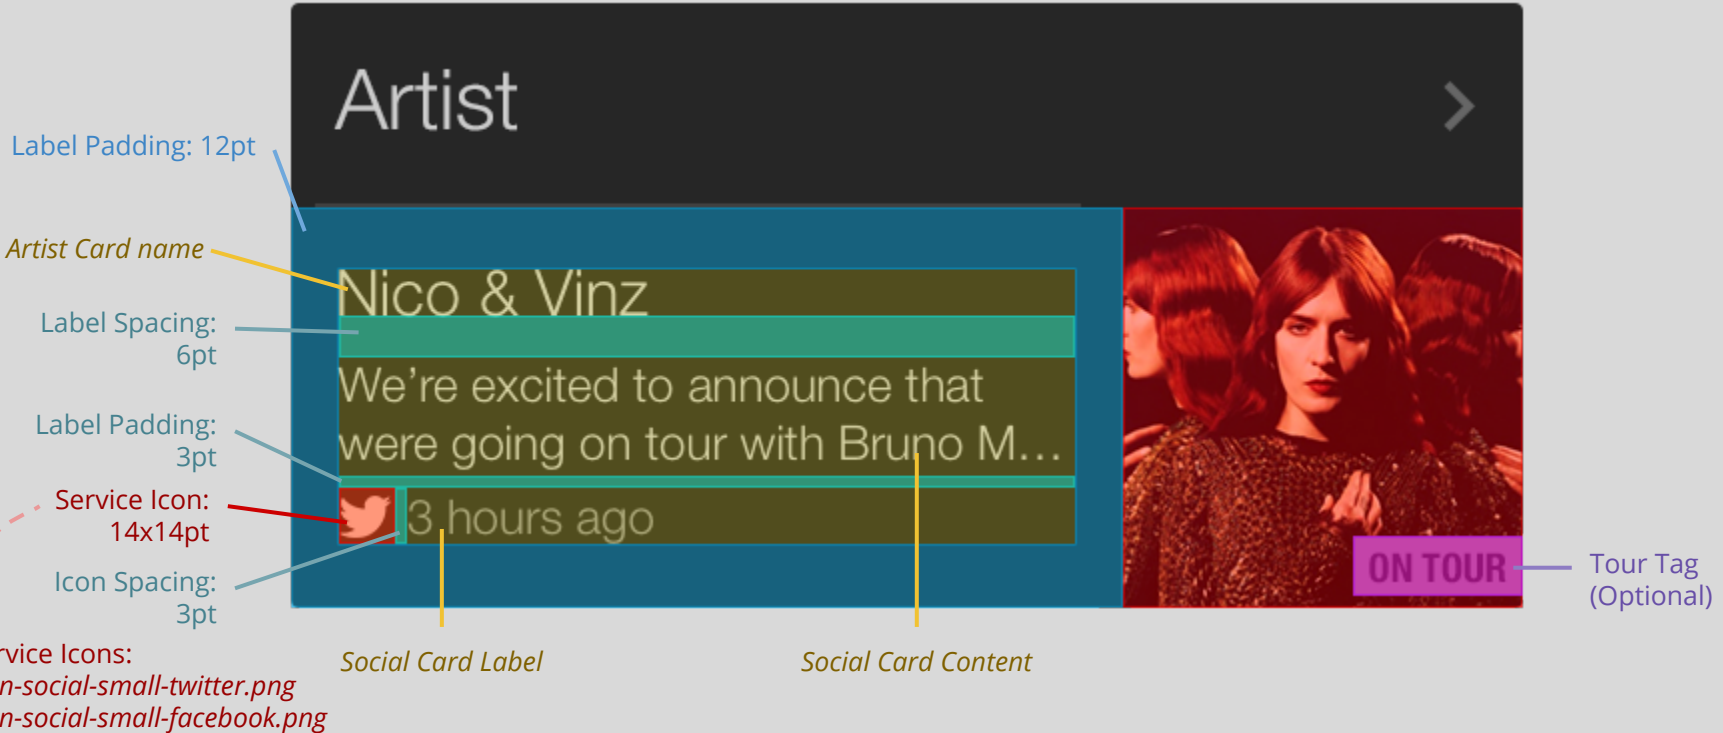

The Location card uses different text styles and images based on the message.

Right Image Card: Medium - Artist

The artist card displays various content in the description area depending on their availability. Social updates (Twitter/FB) or biography excerpts are typically used. Biography excerpts use the normal *Card Subtitle* styling.

Artist card with social update:

Top Image Card

This simple card is used for promotions and features such as custom charts. It should adapt to the size of the top image.

187pt tall with a max-height image

Top Image:
Max size 308x130pt
The card should
center the image
and collapse
vertically if the
image is smaller
than the max.

Label Padding: 12pt

Card Small Title

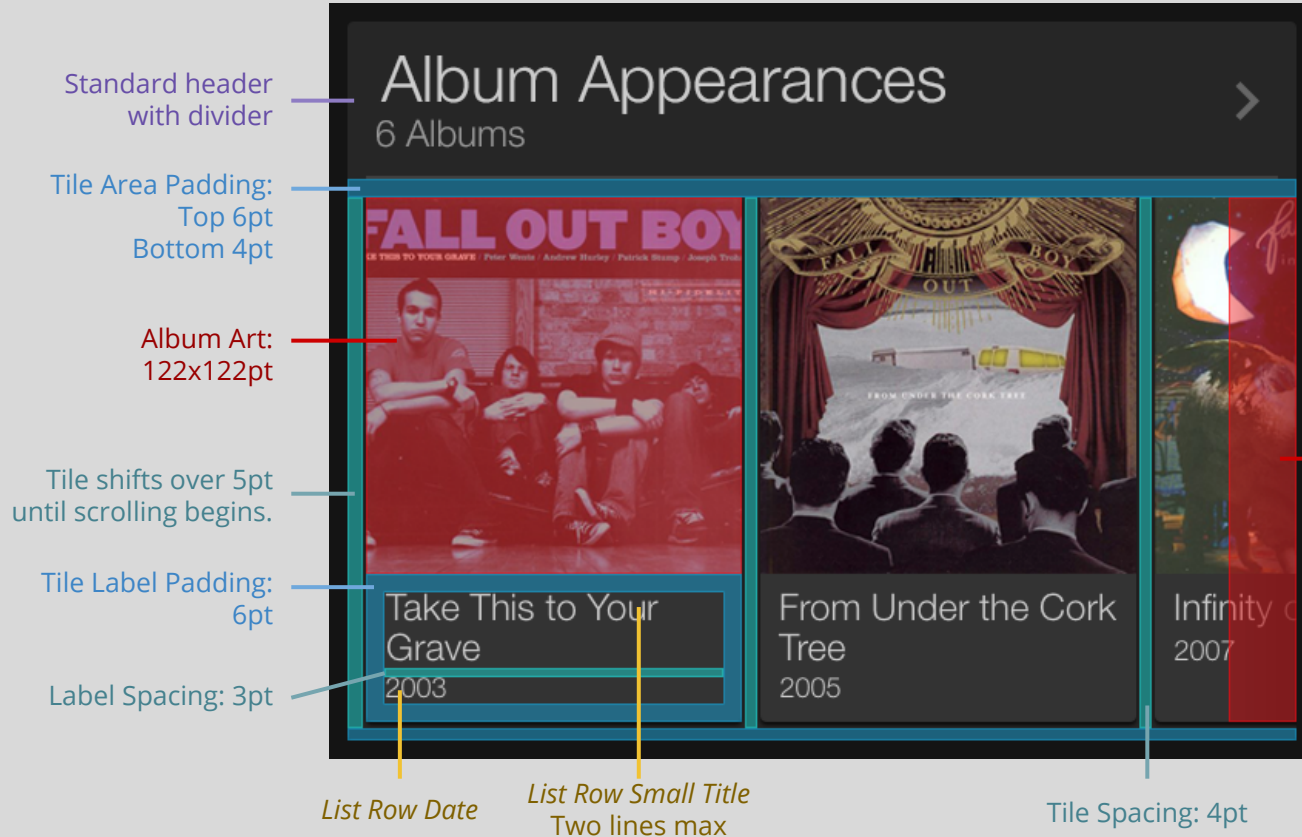

Label Spacing:
6pt

Card Subtitle

Album Tile Card

The album tile card presents albums in a horizontally-scrolling row. Scrolling should snap to the tile edges. This card is nearly identical to the video tile card.

Entire card: 233pt tall

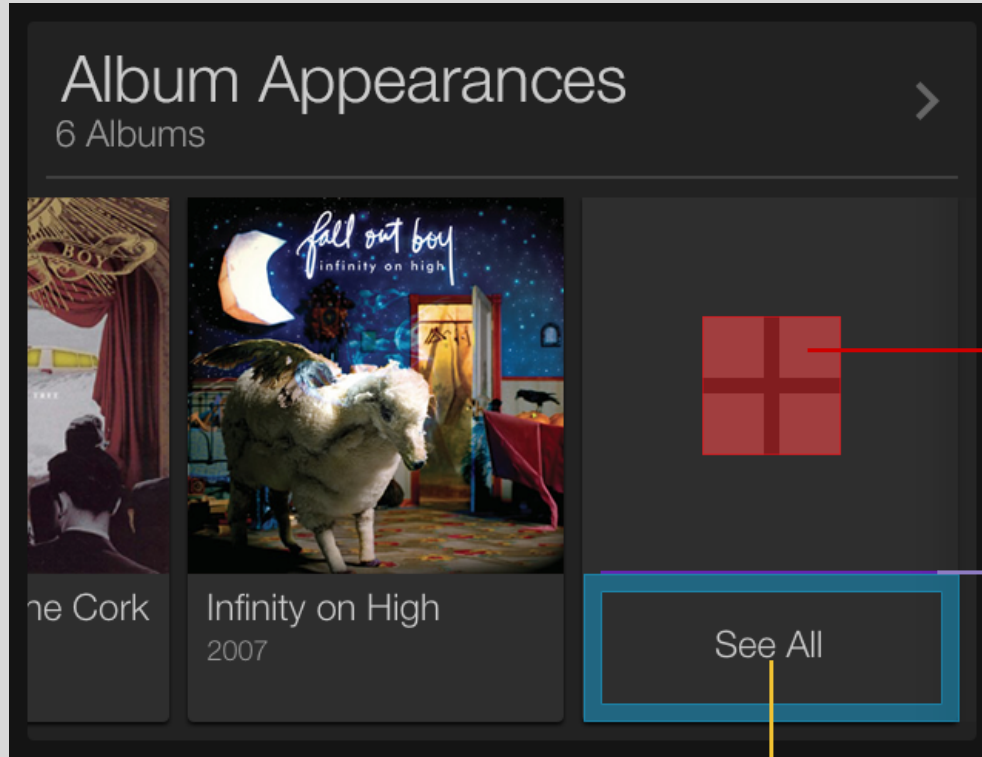

All tiles use the same shadows as the video tiles.
Tile size without shadows: 122x170pt
Tile size with shadows: 124x172pt

Scrolling shadow: Disappears when the last tile is reached.
22x170pt
shadow-tile.png
(Image is 22x1pt to be repeated.)

Album Tile Card - See All Tile

A list of albums with a detail screen places a “See All” link as the last tile.

See All icon:
button-tile-all.png
45x45pt
H & V centered in
album art area.

Standard Divider:
Within tile's borders,
including 6pt L & R
padding.

List Row Small Title
H & V centered

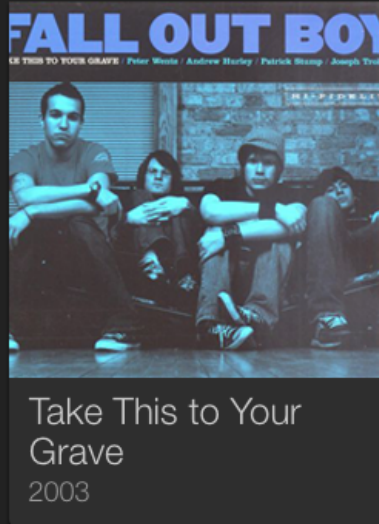

Album Tile Card - Single Album

A single album list places one tile in the center of the card. No header link or “See All” tile is used.

Singular title

Album Appearance

No chevron

Multiple Artists Card

If a track has multiple artists credited they are credited in this card. Each row is a touch target. If there are more than two artists then the two-line header is used with the artist count and a link to a detail list screen with all artists.

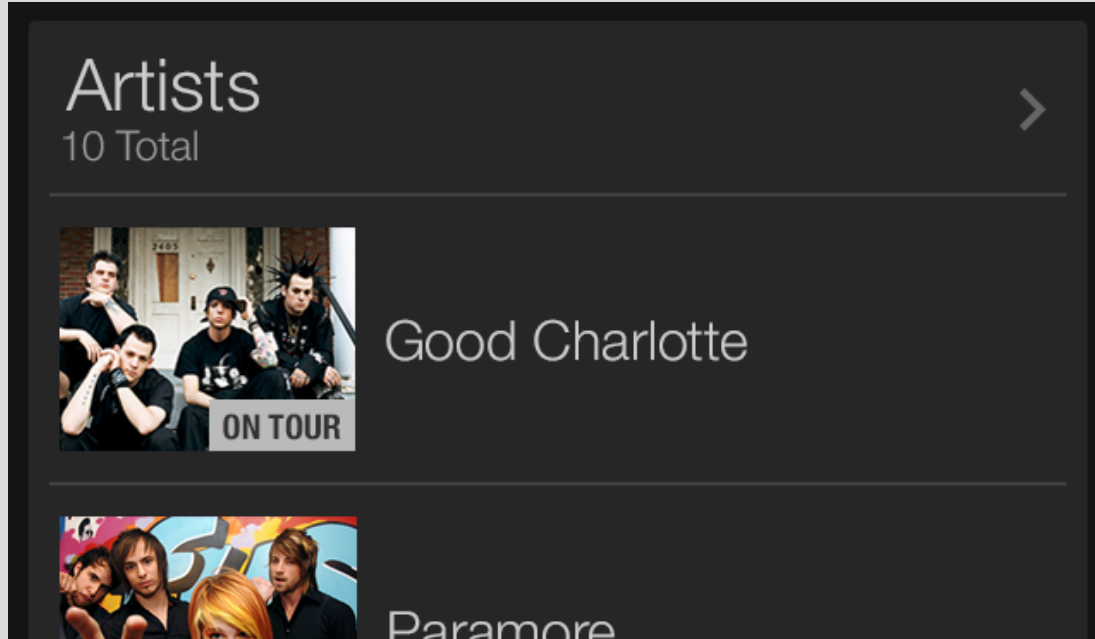

Artist Rows: 83pt tall

The diagram illustrates a 'Multiple Artists Card' with two rows. The top row features the band 'Good Charlotte' and the bottom row features 'Paramore'. The card is titled 'Artists' at the top left. The 'Good Charlotte' row includes an artist image, a purple 'ON TOUR' tag, and the artist name. The 'Paramore' row includes an artist image and the artist name. A blue horizontal bar separates the two rows. Callouts provide the following specifications:

- Row Padding: 9pt
- Artist Image: 86x65pt
- Tour Tag (Optional)
- Label Spacing: 9pt
- Artist Name: Card Small Title Vertically centered
- Standard Divider

Multiple Artists Card - Linked Header

If there are more than two artists then the two-line header is used with the artist count and a link to a detail list screen with all artists.

Song List Card

A list of songs as used in cards like Recommended Songs.

Chart Card: Highlighted Row

A highlighted row style for chart cards, usually used to show the current track's or artist's place on a chart.

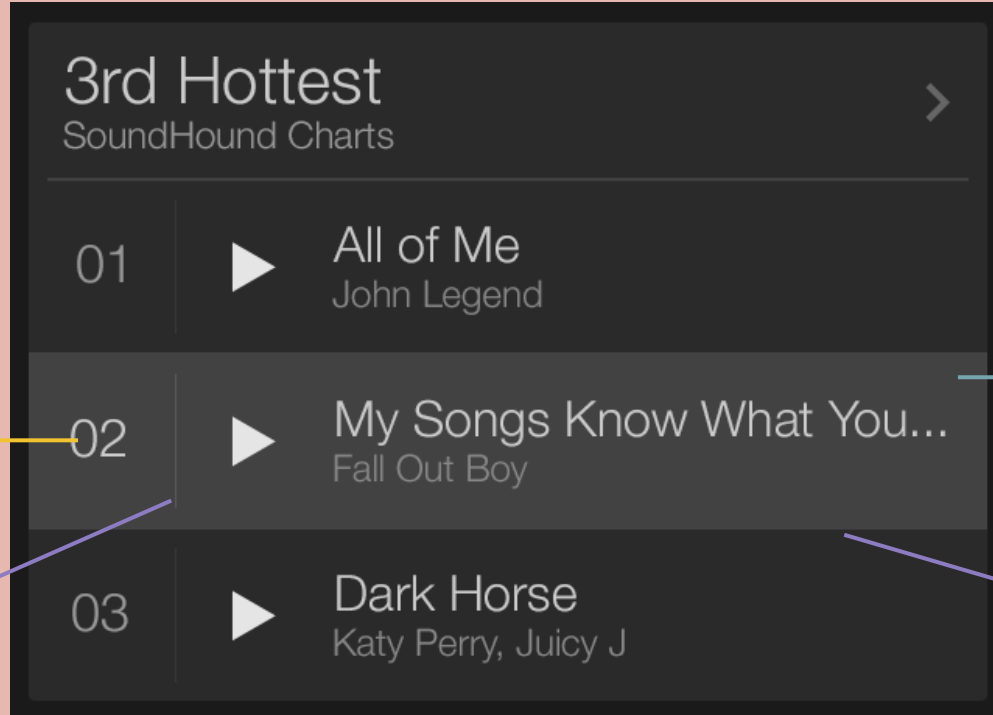

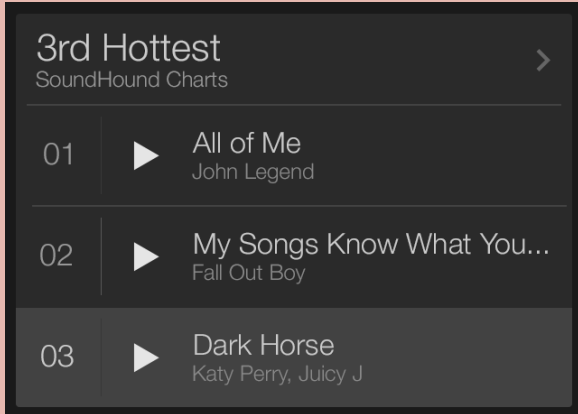

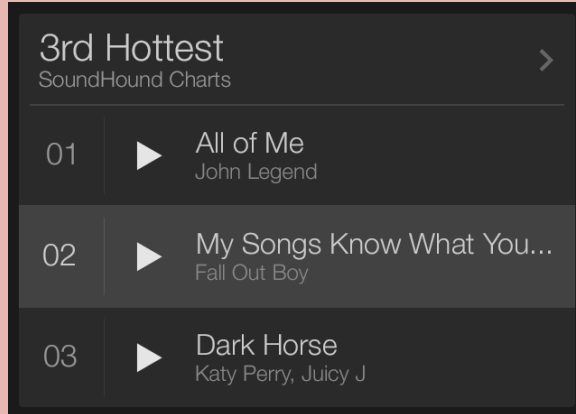

Chart Card: Highlighted Row - Dividers

A highlighted row style for chart cards, usually used to show the current track's or artist's place on a chart.

Standard dividers are used between standard rows.

No dividers are used adjacent to highlighted rows.

A special divider is used if the highlighted row is out of sequence with adjacent rows.

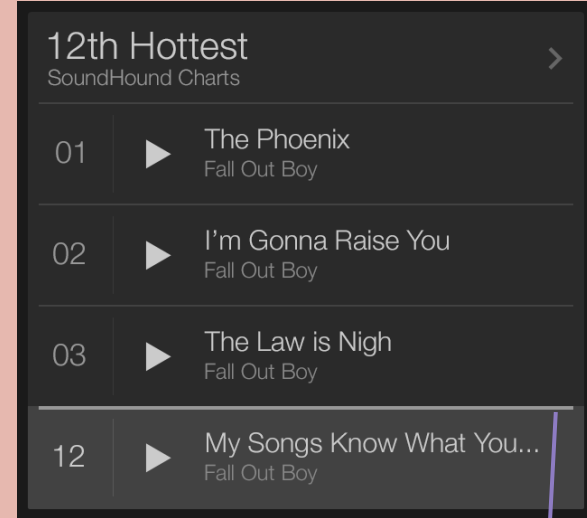

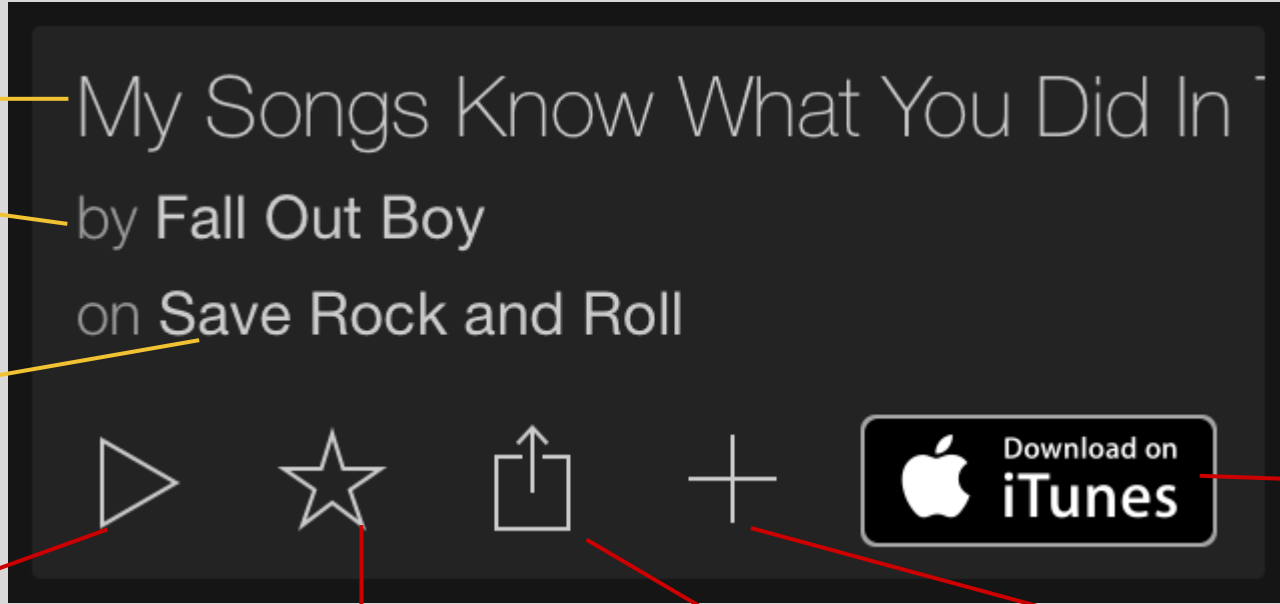

Chart Heavy Divider
TBD

The divider's margins use the same background as the highlighted row.

Track Title Card - Resources (old)

The track title card is a non-standard card.
